

HANDLE SYSTEM[®] PUBLIC LICENSE AGREEMENT (Ver. 2)

IMPORTANT: PLEASE READ THE FOLLOWING LICENSE AGREEMENT CAREFULLY. THIS LICENSE AGREEMENT APPLIES TO THE USE OF HANDLE SYSTEM TECHNOLOGY, WHETHER OR NOT YOU USE THE HANDLE.NET SOFTWARE. IT IS ALSO IMPORTANT TO READ THE HANDLE SYSTEM SERVICE AGREEMENT < <http://hdl.handle.net/4263537/5029> >. IT IS NECESSARY TO ENTER INTO A SERVICE AGREEMENT IF YOU INTEND TO PROVIDE IDENTIFIER AND/OR RESOLUTION SERVICES USING THE HANDLE SYSTEM TECHNOLOGY UNDER THIS HANDLE SYSTEM PUBLIC LICENSE AGREEMENT.

This Handle System Public License Agreement (Version 2) ("HSPL (Ver.2)") is between the Corporation for National Research Initiatives ("CNRI"), having an office at 1895 Preston White Drive, Reston, VA 20191-5434, and the Individual or Organization ("Licensee") that has installed or otherwise used the "Handle System Technology" (as defined below). Licensee shall be deemed to have entered into, signed and agreed to be bound by the terms and conditions of this HSPL (Ver.2) upon such access, installation or other use.

1. **CNRI Property Rights:** CNRI and Licensee acknowledge that:
 - a. CNRI is the owner of U.S. Patent No. 6,135,646, and certain additional pending U.S. patent applications that claim priority based on the filing date of the '646 patent (which patent and applications are referred to collectively as "the Patents").
 - b. CNRI is also the owner of certain software known as HANDLE.NET[®] and its associated documentation, and all intellectual property rights therein including, but not limited to, copyright therein (hereinafter "HDL Software").
 - c. CNRI has posted the Handle System interface specification at its Internet site < <http://www.handle.net/> > and is the owner of copyright and other rights therein ("Interface Specification").

Collectively, the Patents, HDL Software and the Interface Specification are referred to herein as the "Handle System Technology." CNRI and Licensee acknowledge and agree that the Handle System Technology has not been especially made or especially adapted to use in combination with any particular software or product. Accordingly, CNRI shall have no liability for or in connection with Licensee's use of the Handle System Technology in any such combination.

2. **Grant of License:** Subject to the terms and conditions set forth herein, CNRI hereby grants to Licensee:

- a. A nonexclusive worldwide royalty free permission to install, reproduce, modify, display and/or perform publicly and distribute HDL Software to the public, with or without modification, in source or binary form; and
- b. A nonexclusive worldwide royalty free license under the Patents, only to the extent necessary to permit (i) Licensee's exercise of any of the rights granted in Section 2.a; and/or (ii) Licensee's implementation or operation of an identifier and/or resolution service using the Handle System Technology.

3. **Conditions of License:** Any exercise of the rights granted herein is subject to the following requirements:

- a. Each module of HDL Software, and any software or other work that is created by Licensee and is based on or includes all or any part of HDL Software, whether retained by Licensee, or made available to others, shall include CNRI's copyright notice and the following resolvable link < <http://hdl.handle.net/4263537/5030> > to this HSPL (Ver.2). Licensee shall also require all of its own licensees of any such module, software, or other work to include the same copyright notice and link in all works of such further licensees that are based on or include all or any part of HDL Software.
- b. Licensee may not exercise any of the rights granted herein for or in connection with the establishment or operation by Licensee alone, or in cooperation with any other person, of a system of identifier and/or resolution services that disrupts the integrity of the Handle System in any manner. Subject to and without limiting the generality of the preceding sentence, Licensee shall not, without the express prior approval and written consent of CNRI, establish or operate, through the exercise of any rights granted herein, any system of identifier and/or resolution services that: (i) is incompatible with the Handle System Interface Specification; (ii) uses prefixes (or their functional equivalent) that are not authorized by CNRI or that are not known to the Global Handle Registry® ("GHR"), the top level of the Handle System; or (iii) resolves identifiers for which the GHR has no effective means of responding to resolution requests relating to Licensee's identifier and/or resolution services. CNRI may grant or withhold the approval and consent referred to in the preceding sentence in its sole discretion.
- c. In the event that Licensee alone, or in cooperation with any other party, wishes to provide identifier and/or resolution services that use or are based on the Handle System Technology, whether or not Licensee uses HDL Software, then as a material condition of this HSPL (Ver.2), Licensee must register with CNRI and enter into and maintain in effect a HANDLE SYSTEM SERVICE AGREEMENT ("Service Agreement") with CNRI. Service Agreement information is located at < <http://hdl.handle.net/4263537/5029> >. Except as otherwise provided for herein, or in the Service Agreement, Licensee may not exercise any of the rights granted herein, alone or in cooperation with any other person, to generate prefixes (or their functional equivalent), for its own

use or for use by third parties, without prior authorization from CNRI.

d. Licensee shall incorporate the following IMPORTANT NOTICE, in a prominently visible way, in all Licensee software or product release materials that are based on or use the Handle System Technology, whether or not the software or product incorporates HDL Software in whole or in part:

8. HSPL Versions: CNRI may publish revised and/or new versions of the Handle System Public License Agreement ("HSPL") from time to time. Each version will be given a distinguishing version number. Once HDL Software has been made available under a particular version of the HSPL, Licensee may continue to use it under the terms of that version. No one other than CNRI has the right to modify the terms of the HSPL.

9. Export Restrictions: HDL Software provided to Licensee under this HSPL (Ver.2), and any updates to HDL Software, are subject to United States export control laws and may be subject to export or import regulations in other countries. Licensee agrees to comply with such laws and regulations and shall be responsible for obtaining any and all required export and import documentation.

10. Termination: This HSPL (Ver.2) may be terminated, at CNRI's sole discretion, upon a material breach of its terms and conditions by Licensee.

11. General: To the extent Federal law is not applicable, this HSPL (Ver.2) shall be governed by and interpreted in all respects in accordance with the law of the Commonwealth of Virginia, excluding Virginia conflict of law provisions, and the courts within such State shall be the only courts of competent jurisdiction. Nothing in this HSPL (Ver.2) shall be deemed to create any relationship of agency, partnership, or joint venture between CNRI and Licensee.
